Description:

Feature

- 1.1 This machine is designed for processing round holes, slots, keyhole etc on aluminum profile, window-door and curtain wall industry, it is also suitable for processing milling, chamfering, engraving plane surface and other procedure.
- 1.2 Main spindle adopt air-cooling electric main axis from Italy, have the function of high precision, high safety and high reliable.
- 1.3 Adopt Taiwan SYNTEC CNC control system. Have professional CAD-CAM programming software. It can transform processing code automatically, have the function of easy operation, high efficiency and lower labor intensity.
- 1.4 Imported guide rail, sliding block, X axis adopt high precision oblique gear and rack driving. Y and Z axis adopts high precision ball screw drive. The drive is stable, so can improve the precision of whole machine.
- 1.5 Inside blades storage can hold 6 sets blades, the handle is approved ISO 30 standards, it is very safety and reliable.
- 1.6 Adopt manual pump oil supply system, blades adopt system control system control spray cooling device.
- 1.7 The main electrical parts: circuit breakers, AC contactor are all SCHNEIDER brand.
- 1.8 The main components adopts steel structure and they are all through aging treatment.

Specification:

- 2.1 Power supply: 380V/50Hz (As clients need)
- 2.2 Air pressure: 0.5~0.8Mpa

Product Code: PRO-422

Country:  Korean

HSN Code: 0

Unit: 0

Gross Weight: 2560 KG

Net Weight: 2360 KG

Dimension: 7100 x 1600 x 2200mm
